HELP YOUR CHILD LEARN AND GROW!
Try these fun and easy activities with your 30-month-old—a great way to have fun together and encourage your child's healthy development.

- Tell or read a familiar story and pause frequently to leave out a word, asking your child to "fill it in." For example, Little Red Riding Hood said, "Grandmother, what big ________ you have."

- Give a cup to your child. Use bits of cereal or fruit and place one in your child's cup ("one for you") and one in your cup ("one for me"). Take turns. Dump out your child's cup and help count the pieces. This is good practice for early math skills.

- Trace around simple objects with your child. Use cups of different sizes, blocks, or your child's and your hands. Using felt-tip markers or crayons of different colors makes it even more fun.

- Have your child help you set the table. First, have your child place the plates, then cups, and then napkins. By placing one at each place, he will learn one-to-one correspondence. Show your child where the utensils should be placed.

- Help your child learn new words to describe objects in everyday conversations. Describe by color, size, and shape (the blue cup, the big ball). Also, describe how things move (a car goes fast, a turtle moves slowly) and how they feel (ice cream is cold, soup is hot).

- To improve coordination and balance, show your child the "bear walk" by walking on hands and feet, keeping the legs and arms straight. Try the "rabbit hop" by crouching down and then jumping forward.

- Cut pictures out of magazines to make two groups such as dogs, food, toys, or clothes. Have two boxes ready and put a picture of a dog in one and of food in the other. Have your child put additional pictures in the right box, helping her learn about categories.

- Put an old blanket over a table to make a tent or house. Pack a "picnic" sack for your camper. Have your child take along a pillow on the "camp out" for a nap. Flashlights are especially fun.

FUN & EASY SOCIAL-EMOTIONAL ACTIVITIES
Try these activities with your 30-month-old—a great way to have fun together and support your child’s social-emotional development.

Give your child directions that have two steps. Say, “Put all of the LEGOs in the box, and then put the box in the closet.” Let him know what a big help he is!

Make a “Me Book” with your child. Take some pieces of paper and glue in pictures of your child, family members, pets, or other special things. Tape or staple the pages together.

Let your child help when you are cooking and cleaning.* She can do things such as helping to stir, putting flour in a cup, or putting away spoons and forks in the drawer.

*Be sure to review safety guidelines with your health care provider.

Let your child do more things for himself. He can put on his shoes and coat when you go out. Make sure you give him plenty of time to work on these new skills. Say, “What a big boy!”

Your child loves to imitate you. Try new words, animal sounds, and noises, and see if your child can imitate what you say or how you sound.

Encourage creative play, such as drawing with crayons, painting, and playing with playdough. Playing with chalk on the sidewalk is fun.

Play with your child and help her learn how to share. Show her how to share and praise her when he shares with you. This is a new thing for her, so do not expect too much at this age.

Invite a friend with a child over for a playdate. Keep it short, such as 1 or 2 hours. Have some playtime with enough toys for two, snack time, and some outdoor play. Say, “That was fun! See you next time.”
