

(A) is for apples!

By the age of five, children should be able to count to ten. Ask your child to count the apples on the tree.

about your child's development.

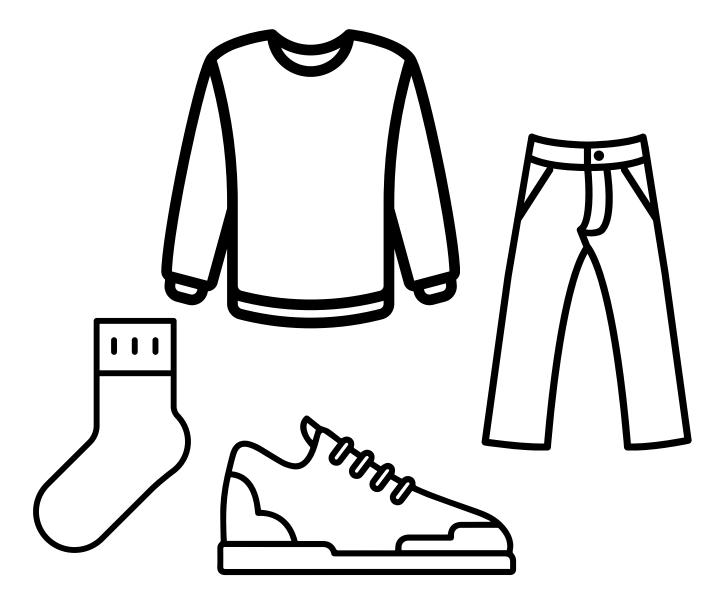

Encourage your child to make up a story about this bear. Imaginative play is important for language development and it expands their creativity!

C is for clothes!

As your child is learning to dress themselves, give them enough time in the morning or night to practice. Help them to make choices that will keep them warm as the weather gets cooler.

SCAN TO LEARN MORE ABOUT HELP ME GROW!

Make sure your child knows that a stranger is anybody who is unfamiliar to them-even people who seem friendly. Talk to your child about how to stay safe and give them reminders.
